To update Photoshop directly, start Photoshop CS6 and choose Help > Updates Or: To download a manual installer for perpetual licenses: Download the update from the and install it manually.. Jul 27, 2018 - To get the latest version of Photoshop, you would need Adobe Creative.. If that's the case, reinstallation might solve it But what I've just said is only a guess at the cause.. Sorry I don't have a better idea (I don't like it either when people say the solution is to reinstall), but what it sounds like is that Adobe Application Manager might have been looking for some component that it expects to be present, and when it couldn't find it, or it wasn't in the state it expected, it decided to stop.. As you probably already know, there is no Photoshop 13 1 2 update in the manual downloads, so the only idea I have is to do the suggestion in the first link that kglad posted in the Adobe forums thread: Reinstall Photoshop CS6.
