Awesome game so far. I got the steam key for free and that won't change anything on my opinion about this game.

Pros:

In-Depth fighting and skills. You can make your choices on who you want in your party. The fans and friendship features are really good. Also got some achievements. Most rpgmaker games don't have those. Contracts are interesting and not too hard to do. A lot of secrets. Good idea/plot also just fight level up and recruit others to your party. Traditional Active turn battles from original final fantasys. Enemies are interesting and every league is different.

Cons: You get too much XP for doing absolutely nothing. Doesn't really have a story. You might have some performance issues and game crashes so save the game VERY OFTEN. Needs more action sequences.

Overall 8.7/10 one of the best rpg maker games i've made so far.

I will later publish a link to my video about this game.

Thank you for reading this and buy this game if you like fighting.. Really enjoyed the game. Hope to see it completed soon.. Game has not been updated and the dev hasnt communicated in a long while. I don't recommend buying this game in it's current state as it is still very incomplete.

EDIT: The game is now being worked on again so these statements are no longer valid, I will play through it again at somepoint to give a proper review of the complete experience. Probably never leaving early access, the last update was over a year and a half ago. That being said, for the price, it's more than worth it as is.

Edit: I stand corrected. updates have resumed after the long hiatus and I'm excited to see where this game goes. I'll be starting a new playthrough right now :). I received this game for free by the dev to review it and give feedback on the current development of the game; the initial gameplay & Review of the game can be found here:

<https://www.youtube.com/watch?v=WsuiCDY4V88>

So To start off, I've reviewed a few RPG Maker games in the past and this one is among the few I really enjoy, the game is quirky and fun. With quite a repetitive experience which is delivered rather well! Combat is somewhat the same as your typical RPG game where it's turn based, however in this its time based (Look at FF7 for an example) which does give a good aspect of it.

There's also a function called "friendship" which I personally love in RPG games, it's always a good function to have however this is rather bland in this game but it does have a nice touch (Not telling anymore about this ;))

There is some mild adult humor within the game along with possibly a few swear words (which personally is one of the reason I quite enjoy the game), you also get to "assemble" your team & gain popularity to unlock more things.

For more about the game I'd recommend paying for the game as it is honestly worth it.

I'd rate the game: 8/10 for an RPG game!. So far, so good. Lots of secrets to be found, all sorts of rules for all sorts of leagues. Hidden gem? I think it just might be, after all it is still Early Access and already more fun then some Triple A titles.. awesome game if you like 16 bit games. Developer very responsive.

18 months later no more updates, i feel abandoned.

2 years after the game is up, we get new content.. Love the game, but wish they would finish it. i feel like its a dropped project. still will recommend this if you want a couple hours of fun.. For an early access game I have to admit I've been impressed with the game so far and they glimpses of the future content have me excited for the day this game exits the early access stage. I've logged 15 hours on this game and I have yet to get bored with it.

-Val. New Speed Up mode in battle for RPG Fighter League + update 15 dec.:

Hi everyone,

I just added in the latest version of RPG Fighter League a new Speed Up mode in battle where you can press and hold the Action Button (Space bar by default) to make the fight go faster. That really help sometime to just go fast forward in a easy fight and continue your journey in the league.

Or you can simply toggle the Speed Up more with the Shift Key.

Another change I made in the game is that right now, the BP will not be depleted between too fight. You will stay with the same number of BP on your characters so you can use more skills to your advantage in battle.

Other tweaks have been made around the game and I added some new windows skins for your too choose you favorite one.

I hope you have fun playing RPG Fighter League and thanks for all the feedback and any reviews of the game in his current state (Early Access) is welcome.

The next update will be about new league and a new character named Jade that you will be able to recruit in the Hall of Champions.

Have fun!

Group of Henry have been surprised!

. New Update after almost 2 years of the Steam.:

Hello everyone,

Firstly I would like to apologize for all the players who were waiting for an update from the game. My life has drastically changed in the last 2 years but I haven't forgotten you or the great game. I know a lot of people were waiting for this. But now you have it, a new update for the game with more content, new leagues, new challenges, a lot of balance tweaks overall across the game.

It's not perfect and it's not the end of this project. But I'm pretty sure that if someone starts a fresh game right now, they have more than 15-20 hours of gameplay to discover everything in RPG Fighter League.

I'm still waiting for your feedback. How do you find the game? Too easy? Too hard? What kind of challenges or surprises do you want?

The game plays overall better right now, with more stuff but with a better balance between the characters and enemies you face along the final victory.

I'm glad to be back.

Here is a summary of what you have in the game right now.

- 14 playable characters that you can recruit to fight in the leagues. (3 More incoming)
- 13 leagues with all kinds of different enemies and challenges for you to overcome. (More incoming)
- 400+ items, pieces of equipment for your team.
- A lot of different secrets to uncover in the depth of the Hall of Champions.
- Millions of possibilities to create the best team to fight in the Fighter League.
- And a lot of fun ahead of you for the fighter in you.

Have a great time!
